Superintendent of Her Majesty's Prisons hosts Meeting with Vice President of major American Technology Firm.

By Dave Mckenzie

Left to right: Dr. Elliston Rahming, Superintendent, Mr. Mike Aultman, Vp of ALS Technology Incs, Deputy Superintendent, Charles Rolle and Chief Officer, Anthony Mortimer.

In an effort to improve security and to embrace Twenty first century standards in a correctional environment, Superintendent of Her Majesty Prison's, Dr. Elliston Rahming met on Monday 17, August, 2009 with Mr. Mike Aultman, Vice President of Arkansas-based ALS Technologies Inc, a major American manufacturing company that specializes in less, lethal level munitions, designed specifically for use in a Correctionall Prison environment.

In addition to serving as Vice President of ALS Technologies Inc, Mr. Aultman is an Internationally Certified Expert Trainer in the field of Corrections. Earlier this year Mr. Aultman trained and certified as an instructor, in the area of Chemical Agents, Her Majesty's Prison Chief Officer, Anthony Mortimer. During the meeting Mr. Aultman gave a description of the products that are manufactured and how they can be effectively utilized in a Correctional setting.
