

FILTER	CTF12 Riot Agent Filter	CBRNF12 CBRNF12B	FM53 General Purpose	FM53 Particulate	FM50 Primary Filter
Classification	CS/CN/P100	CBRN Cap 1	Mil Spec	Pending new approval with Riot Gases Contact Avon Customer Service	Mil Spec
Weight (approx)	200g	320g	280g		159g
Breathing Resistance (approx)	32mm H ₂ O at 85 l/min	41mm H ₂ O at 85 l/min	40mm H ₂ O at 85 l/min		25mm H ₂ O at 42.5 l/min
Packing	Plastic Barrier	Foil	Foil		Foil
Shelf Life (if left in packaging)	5 years	5 years	5 years		5 years
Filter Body Style	Standard	Standard	Conformal		Conformal

SUITABLE PROTECTION AGAINST:

Ammonia		•			
Arsine		•	•		•
Asbestos	•	•	•	•	•
Bacteria	•	•	•	•	•
Benzene		•	•		•
Blister agent		•	•		•
Blood agent		•	•		•
Bromine		•	•		•
Carbon Dioxide	Use Air Supplied Breathing Apparatus whenever asphyxiants such as CO₂ may be present in hazardous concentrations				
Carbon Disulphide		•	•		
Carbon Monoxide	Use only Air Supplied Breathing Apparatus when gaseous combustion products such as CO may be present in hazardous concentrations				
Carbon Tetrachloride	□	•	•		•
Chlorine		•	•		•
Chlorine Dioxide		•	•		•
Chloroacetophenone (CN)	•	•	•	•	•
Chloropicrin		•	•		•
o-Chlorobenzylidene Malononitrile (CS)	•	•	•	•	•
Cyanogen	•	•	•		•
Cyanogen Chloride (CK)		•	•		•
Cyclohexane		•	•		•
Fluorine		•	•		•
Formaldehyde		•	•		•
Hydrogen Chloride		•	•		•
Hydrogen Cyanide (AC)		•	•		•
Hydrogen Sulfide		•	•		•
Lewisite		•	•		•
Mustard (HD)		•	•		•
Nerve Agent		•	•		•
Nitrogen Dioxide		•	•		•
Nuisance dusts	•	•	•	•	•
Nuisance odors	•	•	•		•

FILTER	CTF12 Riot Agent Filter	CBRNF12 CBRNF12B	FM53 General Purpose	FM53 Particulate	FM50 Primary Filter
Oleoresin Capsicum (OC, pepper gas)	•	•	•		•
Organic vapors w/ boiling point >65°C	□	•	•		•
Particulates	•	•	•	•	•
Phosgene		•	•		•
Phosphine		•	•		•
Radioactive particulates	•	•	•	•	•
Sarin (GB)		•	•		•
Soman (GD)		•	•		•
Sulfur Dioxide		•	•		•
Tabun (GA)		•	•		•
Toluene		•	•		•
Virus	•	•	•	•	•
VX		•	•		•
Xylene		•	•		•

WARNINGS

1. These filter recommendations are for guidance only. It is assumed that some filters are used only once and then replaced.
2. Respirator filters must be selected by a competent person following a suitable and sufficient risk assessment.
3. Filters must be used in accordance with appropriate guidelines, regulations or doctrine applied in line with the legislation of the country of application, inappropriate use could result in injury or death.
4. Filters must be stored in accordance with Avon's user instructions.
5. The incident commander must establish a filter change schedule based on a suitable and sufficient risk assessment. Failure to do so may result in filter breakthrough and consequent injury or death. Contact Avon for assistance.
6. Do not use filtering respirators in oxygen deficient atmospheres (<19.5%) or in poorly ventilated spaces.
7. **Avon conformal filters for use on specific Avon masks only. Filters may not seal with other products leading to serious injury or death.**
